FAA-99-5926-02

**To:** US DOT

**From:** Dr. Craig Johnson, hiker and pilot

Sir/Ma'am:

I oppose the modification. I've hiked both sides of the Grand Canyon and had no negative experiences due to aircraft overflights (they are already regulated). This precedent would simple launch a flurry of unnecessary rulemaking across the country, and end up decreasing a citizens' freedom. "Promote tolerance: Protect freedom"

Please abandon this frivolous litigation and concentrate on issues of efficiency and safety. Thank you, Dr. J.
